

ADVANCED ENERGY INITIATIVE

THE INITIATIVE

Advanced energy is gaining traction as a significant economic development opportunity for Northeast Ohio. While the region has many organizations and companies working in advanced energy, currently no organization exists to lead a collaborative regional effort to drive growth across all sectors of the industry. We know that progress will not simply happen on its own. The region must act soon and work together in a coordinated way to take advantage of opportunities to grow our advanced energy cluster. Seeing this gap, NorTech, in partnership with The Cleveland Foundation and with support from the Fund for Our Economic Future, has formed an initiative to accelerate commercial activity in the advanced energy industry to create positive economic impact and good jobs in Northeast Ohio.

THE MODEL

THE LAUNCH TEAM

Rebecca Bagley
President and CEO

Dave Karpinski
Vice President

Richard Stuebi
Principal

Ted Theofrastous
Advanced Energy Fellow

Kelly South
Sr. Director Communications

GET INVOLVED

We strongly encourage anyone who is engaged in the advanced energy industry, including small or large companies, academic institutions, investors, entrepreneurs, economic development, non profit or philanthropic organizations to get listed in NorTech's online Advanced Energy Directory. Go to: www.nortech.org/OurStrengths/AdvEnergy

CONTACT

To learn about NorTech's advanced energy initiative, contact Dave Karpinski at dkarpinski@nortech.org or 216.533.3725.

ABOUT NORTECH

NorTech, the Northeast Ohio Technology Coalition, is the champion for growing Northeast Ohio's high tech economy. NorTech is the only organization that focuses solely on our high tech economy, across all sectors. We have one, unwavering purpose: To invigorate growth in Northeast Ohio's high tech economy and broadcast our success. We do this by building industries from technology areas where we have the best opportunities to be successful and by marshaling the resources and forging collaborations to put our high tech economy on the fast-track. www.nortech.org
